

Session Program

November 26, 2025

MatFyz CONNECTIONS 2025

Poster session + káva: prezentácie študentov Matematika

Wed, November 26

11:00 AM

Poster session + káva: prezentácie študentov Matematika

Session | Conveners: Zuzana Chladna, Katarina Bodova

11:00 – 11:01 AM

Matched Asymptotic Analysis of the Luria–Delbrück Distribution in a Reversible Fluctuation Assay

11:01 – 11:02 AM

Bursty Gene Expression in Single Cells and Expanding Populations: A Discrete Approach

11:02 – 11:03 AM

Homotopy type of G/TOP and G/O

11:03 – 11:04 AM

Classification of smooth manifold structures on products of $CP(n)$ with a k -dimensional disk

12:00 PM
